THE WILMINGTON & MANCHESTER RAIL ROAD.

We last week gave a somewhat rapid account of the manner in which our citizens are progressing in this great enterprise of the age We stated then that we should be able to give in this number of the "Journal" a more definite account of the progress of the Committee appointed to solicit subscriptions to the Wilmington & Manchester Road. We now place the proceedings of the meeting of last Thursday evening on record. It is with pleasure that we discover that we have not over-rated the success that attended the efforts of our citizens. But we have much to do yet. The amount of stock already subscribed in this town and vicinity is upwards of \$200,000; mington. She is expected to raise this sum. We feel confident that she can and will raise any doubt on our mind as to the building of was still rising rapidly. the Road. This great enterprise must and will go through to Manchester, notwithstanding the opinion of the Raleigh Star that our "efforts are misdirected" in the construction of the Wilmington and Manchester Road. We do not view the matter in the same light that our rivals do. We look upon our route as the only route yet suggested, whereby our State will receive the benefits of the products of her soil, in a commercial point of view and we also look upon the Manchester Road as the only route yet spoken of that is in the least calculated to build up a commercial city within our own borders. Wilmington is the only town in North Carolina that can be reached with heavy shipping. She is, therefore, bound to go ahead, and eventually compete with Charleston.

Our neighbors and friends of the Metropolitan route may view these remarks as idle and visionary, but they will find that we are correct, at least in the main features of our ideas. The rich districts of Marion, Darlington and Sumter, must find a market at Wilmington, so soon as the road shall be laid down, and cars are placed upon it. And thus we shall not only receive a vast quantity of the pro duce of our own State at this port, which we now lose, but also a portion of the products of South Carolina. But we did not commence this article with any intention of going into a discussion of the propriety of building our Road That point has long since been disposed of.

While on this subject, we had as well notice an article which we published on the 23d our South Carolina friends to go on, and cast | 81 to 9d. a deaf ear to all reports they may hear with respect to the probability of Northern capital- Philadelphia as being telegraphed off the Highists subscribing to the Metropolitan route. FOURTH OF JULY AT MONTEREY. The national birth-day of the Independence of the United States, was celebrated with great glee at Monterey, by our army, on the vune thus describes the celebration :-

"The celebration is over, and without any accident, a rare thing for a Fourth of July, and everything went off pleasantly and agreeably to all concerned. The morning of the contradictory to be relied on. General Scott 5th was cloudy, and portended rain, but the bright sun soon dispelled the heavy mist that clung to the mountain's side, and ere noon the heavens were as clear and bright as a lovely woman's smile. Early in the forenoon, the American ensign was displayed from the Governor's quarters, and the Spanish flag from the port residence of the Spanish consul nearly opposite. The five companies of Massachusetts volunteers were assembled, all but the guard, with the colors of the regiment presented them by the Governor of their State, and a little after 9 o'clock they formed and marched out towards Camp Taylor. An American flag borne by a citizen was carried near the regimental colors. Col. Henshaw & Co., of Boston, the gentlemen who have purchased the Portsmouth and Roanoke Rail Road. Raleigh and Fayetteville were both represented. A report is in circulation rival of the Steamers Washington and Hiberhere, the substance of which is, that Boston capitalists have taken, or proposed to take, a large amount of Stock in the Metropolitan Rail Road; such a report, we learn, is in circulation in your State, very much to the inju-5th of July. The correspondent of the Pica- ry of our cause, is filling our friends with doubt, as to which Road will be built. This report does not say what capitalists; we are. therefore, left to infer, that it is the same company who purchased the Portsmouth and Roanoke Road, (Henshaw, Ward & Co). As the report was, no doubt, put in circulation for the injury of our Road, and advancement of the other, I have thought proper to put you in possession of facts, as we believe them, that you may be enabled to counteract any evil effects that may grow out of such a re-

These gentlemen have purchased the Portsmouth and Roanoke Rail Road, and are now preparing to put it in first rate order; they have made arrangements to have a new and splendid line of boats on the Chesapeake, to run in connexion with their road and ours .-They have subscribed 1020 shares of stock (a bare majority) in the Road from Weldon to Gaston, (13 miles long) to connect with Raleigh; their object in this, is to draw travel and freight over their Road from Raleigh, and its neighborhood. If they have ever entertained the idea of taking Stock in the Metropolitan Road they have never expressed it; in fact, from all I could gather, they look upon that project as impracticable, for a long time to come, at least; nor do they conceal the knowl- Brown & Co. edge of the fact, that their interest and our interest is identified. They speak of our project for a Road to Manchester, as being not only highly practicable, but must be very profitable; the only wonder is, that there should be any difficulty in getting the Stock subscribed. She bro't the largest number of passengers that has ever been conveyed across the Atlantic by any steamship. In the list of passengers, we no-

tice the name of the Rev. S. H. Tyng. The Washington brings eleven days later intelligence from England. The news, in a commercial point of view, is very interesting. Some days before the W. left, the weather had been so untavorable to the growing crops, hat fears were entertained that the yield would be small, and in consequence of these apprehensions, Flour has advanced in price, and Cotton declined. On the 3d of July, the quo- Blount, J tations in Liverpool for United States flour, Bunting, James were 34 a 35s., and for Indian corn, 40 a 45s. for 480 lbs. CHILLS AND FEVER .- Wright's Indian Vegetable Pills are one of the best, if not the very best medicine in the world, for the cure of Intermittent Fever, because they excele all others infridding the body of those morbid humors which are the cause, not only of all kinds of fevers, but of every malady incident to man. Four or five of said Indian Vegetable Pills, taken every night on going to bed, will in a short time make a perfect cure of the most obstinate case of chills and fever; at the same time the digestive organs will be restored to a that fever and ague, or disease in any form, will

be absolutely impossible. Beware of Counterfeits of all kinds! Some are coated with sugar; others are made to resemble in outward appearance the original medicine.-The safest course is, to purchase of the regular agents only, one or more of whom may be found in every village and town in the State. Principal Office, 169 Race street.

For sale in Wilmington, N C, by George R French and James W. Johnson, only Agents.
